

WHAT IS CLAIMED IS:

1. In the process of preparing a branched (co)polycarbonate resin the improvement comprising reacting at least one member selected from the group consisting of compounds of the formulae 1a and/or 1b

10

1 a

1b

in which

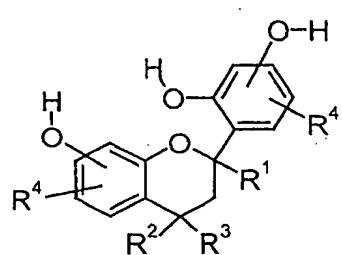

15

R¹, R² and R³ independently denote linear or branched C₁-C₁₀-alkyl, R⁴ and R⁵ independently denote hydrogen or linear or branched C₁-C₁₀-alkyl, p₁ and p₂ independently of one another denote a whole number between 3 and 10,

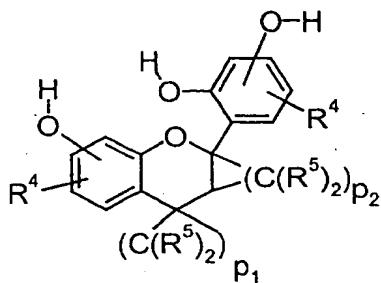

20

2. In the phase interface process for the production of (co)polycarbonate resin the improvement comprising reacting at least one member selected from the group consisting of compounds of the formulae 1a and 1b

25

1 a

1 b

3. The (co)polycarbonate prepared by the process of Claim 1.
- 5
4. The (co)polycarbonate prepared by the process of Claim 3.
5. A molded article comprising the polycarbonate of Claim 4.
- 10 6. A molded article comprising the polycarbonate of Claim 5.
